

Precious Onifade

Software Engineer

onifadej@gmail.com | +234 8111 384 392 | naychurrahl.github.io

Rigorously secure. Relentlessly experimental.

Full-stack engineer building robust backend systems and modern frontend applications, with security, maintainability, and scalability designed in from day one. Comfortable across the stack. PHP and custom backend architecture on one side, React on the other and just as comfortable pulling both apart to see how they hold up.

EXPERIENCE

Customer Service Representative

GTBank - Abuja, Nigeria · 2023–2024

- Resolved customer issues efficiently, maintaining high satisfaction through clear communication and active listening.
- Managed multiple concurrent interactions across calls, chats, and tickets while meeting service-level targets.

Technician / Teacher, NYSC

Enugu, Nigeria · 2022–2023

- Taught students basic computer skills while managing daily activities in the school's computer lab.
- Handled minor hardware maintenance and upgrades, and supported exam coordination and invigilation.

Intern

NNPC/PPMC - Abuja, Nigeria · 2019–2020

- Supported daily office operations, from filing and correspondence to data entry and meeting coordination.
- Built early skills in communication, organization, and time management in a formal office setting.

Customer Service Representative

Dolf - Remote · 2018–2019

- Responded to customer inquiries with empathy, resolving issues efficiently on first contact where possible.
 - Built foundational skills in professionalism, active listening, and meeting performance targets.
-

PROJECTS

Naystore

PHP · React · TypeScript · MySQL · JWT

- Multi-module platform bundling e-commerce, portfolio, gallery, and blog sections into one site, with JWT-based auth and role-based access for merchants and admins.
- Product catalog with category filtering, live sorting, sale pricing, and stock badges, plus cart and checkout.
- Custom API fetch utility covering every HTTP method, exposed to the frontend through a useAPI React hook.
- Merchant-facing admin dashboard for managing products and orders, with built-in chat.

Phindol Insurance Brokers

React · TypeScript · Tailwind

- Company website for a licensed insurance brokerage built on client-first advisory and regulatory compliance.
- About, Services, and Partners pages backed by a lightweight CMS so non-technical staff can update content directly.

Rachvic Signatures Platform

PHP · React · MySQL · JWT

- E-commerce build for a Lagos-based fashion brand selling men's and kids' corporate wear, casual outfits, and wristwatches.
- Secure authentication and role-based access control, product catalog, cart, orders, admin dashboard, and checkout workflow.

HYP A Landing Page

HTML · CSS · Tailwind · JS

- Static site showcasing an NGO's mission, projects, partners, and volunteer and donation info, shipped as a fast, dependency-light build.
 - Includes an alternate layout variant for A/B-style comparison.
-

SKILLS

Languages

PHP, JavaScript, TypeScript, Python, SQL

Frontend

React, Vite, HTML5 / CSS3, Tailwind

Backend & Security

Custom PHP architecture, REST APIs, JWT authentication, Role-based access control, Input validation, CORS

Tools

Git, Node.js / npm, MySQL, Linux
